Enterprise Knowledge Base

Appendix & Glossary

Document ID: TNS-APP-015

Version: 1.0

Department: Enterprise Knowledge Management

Classification: Internal Use Only

Version History

Version	Date	Author	Changes
1.0	July 2026	Knowledge Management Team	Initial Release

Table of Contents

- 1. Purpose
- 2. Scope
- 3. Acronyms
- 4. Technical Glossary
- 5. Department Directory
- 6. Contact Directory
- 7. Document Ownership
- 8. Knowledge Base Maintenance
- 9. Document Review Policy
- 10. Reference Documents
- 11. Revision History
- 12. End Notes

1. Purpose

This appendix provides standardized definitions, abbreviations, department contacts, document ownership information, and governance guidelines for the Enterprise Knowledge Base.

2. Scope

This document applies to all employees, contractors, interns, consultants, and authorized business partners who access or contribute to the Enterprise Knowledge Base.

3. Acronyms

Acronym	Meaning
AI	Artificial Intelligence
ML	Machine Learning
DL	Deep Learning
NLP	Natural Language Processing
LLM	Large Language Model
RAG	Retrieval-Augmented Generation
API	Application Programming Interface
MFA	Multi-Factor Authentication
VPN	Virtual Private Network
SLA	Service Level Agreement
SSO	Single Sign-On
RBAC	Role-Based Access Control
CI/CD	Continuous Integration / Continuous Deployment

UAT	User Acceptance Testing
KPI	Key Performance Indicator
CSAT	Customer Satisfaction Score
NPS	Net Promoter Score
RCA	Root Cause Analysis
RTO	Recovery Time Objective
RPO	Recovery Point Objective

4. Technical Glossary

API

A defined interface that allows software systems to communicate with one another.

CI/CD

An automated software delivery process that builds, tests, and deploys applications with minimal manual intervention.

Embedding

A numerical representation of text that captures semantic meaning for similarity search and machine learning applications.

FAISS

An open-source library used for efficient vector similarity search and retrieval.

LangChain

A framework for building applications powered by Large Language Models using tools such as prompts, memory, agents, and retrieval pipelines.

Prompt Engineering

The practice of designing effective prompts to guide Large Language Models toward accurate and useful responses.

Retrieval-Augmented Generation (RAG)

An AI architecture that retrieves relevant documents from a knowledge base before generating responses with a language model.

Vector Database

A specialized database that stores embeddings and performs similarity searches to retrieve semantically relevant information.

Model Drift

A reduction in model performance caused by changes in incoming data over time.

Hallucination

A response generated by an AI model that is incorrect, fabricated, or unsupported by retrieved evidence.

5. Department Directory

Department	Responsibilities
Human Resources	Recruitment, payroll, employee policies
Information Technology	Infrastructure, hardware, software, helpdesk
Information Security	Cybersecurity, compliance, incident response
Engineering	Software development and deployment

AI & Data Science	Machine learning, analytics, RAG solutions
Product Management	Product strategy and roadmap
Customer Support	Customer issue resolution
Finance	Budgeting, reimbursements, payroll processing
Enterprise Operations	Governance and process improvement

6. Contact Directory

Department	Contact Email	Response Target
HR	hr@technova.example	1 Business Day
IT Helpdesk	itsupport@technova.example	4 Hours
Information Security	security@technova.example	1 Hour (Critical)
Engineering	engineering@technova.example	1 Business Day
AI Department	ai@technova.example	1 Business Day
Customer Support	support@technova.example	4 Hours
Finance	finance@technova.example	2 Business Days

Note: These email addresses are fictional and provided only for demonstration purposes.

7. Document Ownership

Document	Owner
Company Overview	Corporate Communications
HR Policies	Human Resources
Leave Policies	Human Resources

Employee Benefits	Human Resources
IT Helpdesk Guide	Information Technology
Information Security Handbook	Information Security
Engineering Handbook	Engineering
AI Department Handbook	AI & Data Science
Product Documentation	Product Management
Customer Support Guide	Customer Support
Enterprise FAQ Center	Knowledge Management
Enterprise Case Studies	Enterprise Operations
Enterprise Troubleshooting Guide	Enterprise Operations
Forms & Templates	Enterprise Operations
Appendix & Glossary	Knowledge Management

8. Knowledge Base Maintenance

The Enterprise Knowledge Base shall be:

- Reviewed every six months.
- Updated after major policy or product changes.
- Version-controlled for all documents.
- Audited annually for accuracy and completeness.
- Approved by the owning department before publication.

Outdated documents must be archived but retained for historical reference.

9. Document Review Policy

Each document should include:

- Version number
- Revision date
- Document owner
- Approval authority
- Change summary

Major revisions require approval from the respective department head.

10. Reference Documents

This knowledge base consists of the following documents:

- 1. Company Overview
 - 2. HR Policies
 - 3. Leave Policies
 - 4. Employee Benefits
 - 5. IT Helpdesk Guide
 - 6. Information Security Handbook
 - 7. Engineering Handbook
 - 8. AI Department Handbook
 - 9. Product Documentation
 - 10. Customer Support Guide
 - 11. Enterprise FAQ Center
 - 12. Enterprise Case Studies
 - 13. Enterprise Troubleshooting Guide
 - 14. Forms & Templates
 - 15. Appendix & Glossary
-

11. Revision History

Future revisions should be recorded in the following format:

Version	Date	Description	Approved By
1.0	July 2026	Initial Release	Knowledge Management
1.1	TBD	Policy Updates	TBD
2.0	TBD	Major Revision	TBD

12. End Notes

This Enterprise Knowledge Base is intended to serve as the single source of truth for TechNova Solutions Pvt. Ltd. Employees are encouraged to consult the relevant documents before raising support requests or seeking clarification.

Continuous improvement of the knowledge base depends on timely updates, accurate documentation, and collaboration across all departments.
